

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent to Request Revision and Extension of a Currently Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Aquaculture Surveys. Revision to burden hours will be needed due to changes in NASS estimates programs, target population sizes, sampling designs, and/or content of questionnaires.

DATES: Comments on this notice must be received by **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]** to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0150, by any of the following methods:

- E-mail: ombofficer@nass.usda.gov. Include the docket number above in the subject line of the message.
- Efax: (855) 838-6382.
- Mail: Mail any paper, disk, or CD-ROM submissions to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW, Washington, D.C. 20250-2024.

- Hand Delivery/Courier: Hand deliver to: Richard Hopper, NASS
Clearance Officer, U.S. Department of Agriculture, Room 5336
South Building, 1400 Independence Avenue SW, Washington,
D.C. 20250-2024.

FOR FURTHER INFORMATION CONTACT: Kevin L. Barnes, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720-2707. Copies of this information collection and related instructions can be obtained without charge from Richard Hopper, NASS – OMB Clearance Officer, at (202) 720-2206 or at ombofficer@nass.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Aquaculture Surveys.

OMB Control Number: 0535-0150.

Expiration Date: May 31, 2023.

Type of Request: Intent to seek approval to revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production, prices, and disposition. The Aquaculture Surveys program produces estimates at the national level on both trout and catfish. Survey results are used by government agencies and others in planning farm programs.

The trout survey includes sales (dollars, pounds, and quantities), percent of product sold by outlet at the point of first sale, distribution (dollars, pounds, and quantities) of fish raised for release into open waters, and losses. The catfish surveys include inventory counts, water surface acreage used for production and sales (dollars, pounds, and quantities).

- Twenty-five states (Arkansas, California, Colorado, Connecticut, Georgia, Idaho, Massachusetts, Michigan, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Oregon, Pennsylvania, Tennessee, Utah, Virginia, Washington, West Virginia, Wisconsin, and Wyoming) are in the Trout Production Survey. In January, data are collected in the selected states that produce and either sell or distribute trout. State, federal, tribal, and other facilities where trout are raised for conservation, restoration, or recreational purposes are included in the survey.
- Nine states (Alabama, Arkansas, California, Georgia, Louisiana, Mississippi, Missouri, North Carolina, and Texas) are in the Catfish Production Survey. Data are collected from farmers in January for inventory, water surface acreage, and previous year sales. In addition, farmers in the three major catfish producing states are surveyed in July for mid-year inventory and water surface acreage.
- An aquaculture survey is conducted in Hawaii is conducted under a cooperative agreement with the state.
- An aquaculture census is conducted in Pennsylvania to satisfy Act 98 of the 1998 Pennsylvania General Assembly Amended Title 3 (Agriculture) of the Pennsylvania Consolidated Statutes mentions the Pennsylvania Department of Agriculture cooperates with NASS for a survey of Pennsylvania's aquacultural industry.
- All of the surveys conducted under this approval will have a voluntary reporting statement on each questionnaire with exception to the Pennsylvania Aquaculture Census, which is required by State Law.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a).

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Public Law 104-13 (44 U.S.C. 3501, et seq.) and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, Title III of Pub. L. No. 115-435, codified in 44 U.S.C. Ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 15-20 minutes per response. Pre-survey publicity or cover letters will also be included to encourage respondents to complete and return the surveys and to provide the respondents with information on how to complete the surveys using the internet.

Respondents: Farms and aquaculture facilities.

Estimated Number of Respondents: Approximately 2,200 per year.

Estimated Total Annual Burden on Respondents: 700 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of

information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods. All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., November 16, 2022.

Kevin L. Barnes,

Associate Administrator
